- Auto-fit row height → Alt + H, O, A
- Manual row height → Alt + H, O, H
- Manual column width → Alt + H, O, W
- Hide selected column → Ctrl + 0
- Hide selected row → Ctrl + 9
- Unhide → Alt + H, O, U

A. DATA RESHAPING

3. Border & Visual

- All borders → Alt + H, B, A
- Remove borders → Alt + H, B, N
- Open border menu → Alt + H, B
- Bold → Ctrl + B
- Center align → Alt + H, A, C
- Insert New Row: Ctrl+Shift+(+)
- Delete row / column → Ctrl + -

4. Copy, Paste & Fill

- Copy → Ctrl + C
- Cut → Ctrl + X
- Paste → Ctrl + V
- Paste Special → Ctrl + Alt + V
- Paste values only → Alt + E, S, V
- Paste formulas only → Alt + E, S, F
- Fill down → Ctrl + D
- Fill right → Ctrl + R
- Apply formula to many cells → Ctrl + Enter

B. DATA TRANSFORM

1. Data Sorting & Filtering

- Apply / remove filter → Ctrl + Shift + L
- Open filter dropdown → Alt + ↓
- Filter by selected cell value → Alt + A, T
- Sort A → Z → Alt + A, S, A
- Sort Z → A → Alt + A, S, D
- Sort by multiple columns → Alt + A, S, S
- Advanced Filter → Alt + A, F, F

2. Table & Structure

- Convert range to table → Ctrl + T
- Remove table → Ctrl + T → Yes
- Refresh all (Pivot / Query) → Alt + H, R, R
- Insert Pivot Table → Alt + N, V
- Group / Ungroup data → Alt + Shift + → / ←

C. DATA CLEANING

1. Text, Date & Value Cleaning

- Text to Columns (Text → Date / Number) → Alt + A, E
- Open format cells → Ctrl + 1
- Change date / number format → Ctrl + 1

- Highlight Duplicates & Blanks: Conditional Formatting

C. DATA CLEANING

3. Formulas & Error Handling

- Edit cell → Fn+F2
- Lock reference ($) → Fn+F4
- Apply formula to many cells → Ctrl + Enter
- AutoSum → Alt + =
- Show / hide formulas → Ctrl + `
- Evaluate part of formula → F9
- Calculate all sheets → Ctrl + Alt + F9

4. Value Errors & Smart Fixes

- Fix value error suggestion → Alt + Shift + F10 → C
- Convert text to number → Alt + Shift + F10 → C
- Ignore error → Alt + Shift + F10 → I
- Check error source → Formula Bar hover

D. ADVANCED ANALYSIS

1. Data Validation & Tracking

- Data Validation → Alt + A, V, V
- Name Manager → Alt + M, V
- Trace precedents → Alt + M, P
- Trace dependents → Alt + M, D
- Remove arrows → Alt + M, A

2. Power Query (Advanced Cleaning)

- Open Power Query → Alt + A, P
- Refresh all queries → Alt + H, R, R

3. Analyst Level Must-Know

- Freeze top row → Alt + W, F, R
- Freeze first column → Alt + W, F, C
- Freeze panes → Alt + W, F, F
- New Excel file → Ctrl + N
- Save file → Ctrl + S
- Undo / Redo → Ctrl + Z / Ctrl + Y
